2020 Conference Cancelled

Due to COVID-19 and the long impact we expect it to have, we have decided that it is impossible to hold the conference this year in May 2020. We thought about postponing but we would run into issues with having only months between this conference and May 2021 Conference. Please understand we did not come to this decision lightly, and hope to see you all in May 2021.
